# Contents

1. Contemporary challenges in speech and language corpus annotation .....	7
2. Dealing with the diversity of annotation formats and tools: towards a synergy.....	13
3. Annotation Pro software design and structure.....	17
3.1. General assumptions and design .....	17
3.2. Programming structure .....	22
3.3. Annotation Pro API .....	24
4. Fundamentals of applying Annotation Pro plugins to annotation mining .....	29
4.1. Plugin environment.....	29
4.2. First steps .....	30
4.3. Creating a simple script .....	31
4.4. Saving the script .....	34
4.5. Plugin file name format.....	35
4.6. Launching a plugin.....	38
4.7. Something slightly more ambitious: annotation .....	41
4.8. Adjusting annotation project's sample rate to audio .....	50
4.9. Using helper methods for conversion of samples to seconds .....	53
4.10. Selecting all segments with a given transcription label.....	54
4.11. Deleting all segments with a given transcription label .....	58
4.12. Calculating duration difference between the present and preceding segment and save to parameter .....	65
4.13. Duplicating layer and identifying vowel and consonant transcription labels.....	69
4.14. Filling empty spaces with segments .....	73
4.15. Opening annotation file and selecting audio.....	79
5. Annotation mining of syllable durations and exploring perception tests results with plugins .....	83
5.1. Segment Rate Moving Average (SRMA) .....	83
5.1.1. SRMA – Variant 1: only segments entirely included within the frame .....	84

5.1.2. SRMA – Variant 2: include segments partially included within the frame .....	91
5.1.3. SRMA – Variant 3: count segment fractions .....	99
5.1.4. A measurement of temporal convergence in French spontaneous dialogs .....	108
5.2. Perception-based annotation and tests using discrete, continuous or mixed rating scales .....	114
5.2.1. Assigning labels to polygon areas of the graphical representation of the feature space .....	116
5.2.2. Measuring the distance from the middle of the feature space .....	130
5.2.3. Study report: Perception of native and non-native speech by Polish listeners using Polish, Hungarian, and French speech samples ..	139
6. Interoperability and common interfaces .....	151
6.1. Data interchange support .....	151
6.2. Using plugins for data import and export .....	153
6.2.1. Importing BLF to ANT .....	154
6.3. Generating R plots with Annotation Pro plugins .....	165
6.3.1. R plots for Annotation Pro + TGA plugin .....	165
6.4. Integrating with relational databases .....	172
7. Summary & Outlook .....	177
Index of Figures .....	181
Index of Listings .....	185
References .....	187
Acknowledgements .....	197
